ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Campton School Board:

My seventh annual report of Superintendent of Campton schools is herewith submitted. It has been purposely made brief and presents only those items for discussion that seem to be of greatest immediate interest and importance.

Campton is one of two school districts in this supervisory union to lose its entire state aid allotment as a result of legislative economy. This has thrown a heavier load on local taxpayers which will continue until such time as the state aid program is revived. The situation in which we now find ourselves presents some real danger. The danger is that public desire to curtail expenditures may easily be carried to a point where children have to pay the bill through restricted educational advantages. If the school budget seems large it is the result of necessity rather than preference of any school officials.

Beginning in September, 1949, a start was made to give some financial recognition to professional improvement by teachers. However, Campton salaries are far below the state average as well as below the starting salaries of inexperienced teachers just out of College. This should be corrected as rapidly as it can be done if we are to retain our teachers or procure replacements when necessary.

Our teaching force is the same as last year with one exception. Miss Myrtle Dodge was unable to return to Blair School last September and requested leave of absence for the year in the hope that her health may be restored. Mrs. Virginia C. Sargeant has acceptably taught in Blair School this year.

Because of the territorial size of Campton there will always be the possibility of transportation obligations that will vary from year to year. Up to the pres-

ent time there has been general adherence to the statutory two-mile transportation limit established in 1919. How long this may continue depends upon the will of the school district and whatever development is experienced in the increase of highway hazards.

From time to time suggestions and requests for services are received that more often than not have to be refused. As long as our children are housed in six widely separated schools it will be impossible to give them all the services they might enjoy in a single large school. Water and toilet facilities, school hot lunches, and recreation are among those things which natural conditions limit severely. At some future period Campton may be able to have a modern, centralized school, but, in the meantime, we must be prepared to accept the limitations we are powerless to remove.

More reference books, new and enlarged map equipment, and progressive replacement of old school furniture are among the things we should acquire as rapidly as financial means permit. Since nearly all school children are unable to enjoy library privileges, we ought to put as much at their disposal in school as we possibly can.

The statistical tables that follow have been reduced in number to include only such information as may be essential for public record.

Respectfully submitted,

ARTHUR S. ROLLINS,

Supt. of Schools

1950-1951 SCHOOL CALENDAR

Jan. 2, 1951	Feb. 16, 1951	7	34

April 30, 1951	June 15, 1951	7	34
		38	180

This calendar provides for opening all schools on Wednesday after Labor Day and closing all schools on Thursday, December 21. The fall term of 16 weeks contains 72 school days in addition to one day out for Plymouth Fair; two days for Teachers' Convention; and two days at Thanksgiving.

Since the two Convention days may be counted as a part of the school year, the calendar contains a possible 182 days. If more than two days should be lost because of bad weather, the required minimum of 180 days could be met either by Saturday sessions or by keeping school as long as necessary after June 15.
